

Tutor Flow

EMPOWERING POTENTIAL

What is TutorFlow?

TutorFlow is an AI-powered learning assistant built for South African students, aligned to the CAPS and IEB curriculum. It gives learners on-demand academic help, personalised explanations, and exam preparation tools — all in a single, easy-to-use platform.

Why Partner with TutorFlow?

School Insights:

When 50% of your students join, we provide **confidential, aggregated learning analytics** — helping you see subject strengths, common challenges, and performance trends per grade.

Affordable for Families:

Free 7-day trial, then just **R100/month** per student — far more accessible than a single private tutoring lesson.

Zero Setup Required:

We provide the content, platform, and promotional material. You simply **share our sign-up link** in your school's newsletter, WhatsApp group, or parent meetings.

Better Student Outcomes:

Students get personalised answers to their academic questions — **anytime, anywhere** — freeing up teachers for deeper classroom work.

Tutor Flow

EMPOWERING POTENTIAL

How It Works for Your School

1. We give you a unique sign-up code for your school.
2. You share it with parents and learners.
3. We handle onboarding and support for all students.
4. Once 50% join, we activate your school's insights dashboard.

Key Benefits for Schools

- Improved student performance through personalised support.
- Easy, non-disruptive adoption — works alongside existing teaching methods.
- Transparent reporting for data-driven decisions.
- No cost to the school — parents pay directly.

Next Steps
